December 07, 2020

Dear friends and Families,

We would like to forward greetings to all from Berhan Yehun Ethiopia. We hope and wish that 2020 bring many blessings in all aspects of your life.

During the past 10 years, all of you have been part of Berhan Yehun in one way or another. It is because of God through you that we are where we are. Your participation has been very crucial for the welfare of the children in general and their academic success in particular. Some of you have been donating your money, your time, school materials, food items, cloths and so on. Because of you, our hope in bringing light to every child's life is still bright as we had initially envisioned it. Berhan Yehun is grateful for your compassionate support and passion to create educated community within Kore. We praise God for you!

As some of you know, due to various reasons we have not been able to provide periodical updates and we really would like to apologize on that.

Till then, below are some of the high level on what is being provided to the 40 kids that we currently have.

Berhane Yehun Ethiopia had 42 children getting service in the center. Among them 3 children left the center for on their own personal reason. One girl left because her living condition improved and relocated on other part of town. She was thankful for the service she got from Berhan Yehun in the past years.

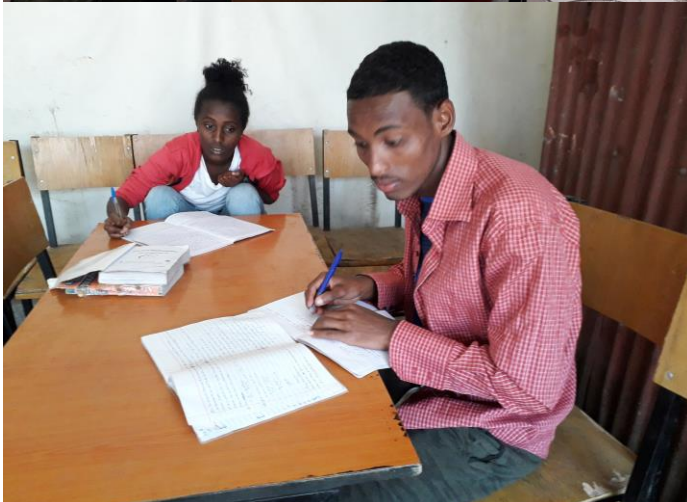

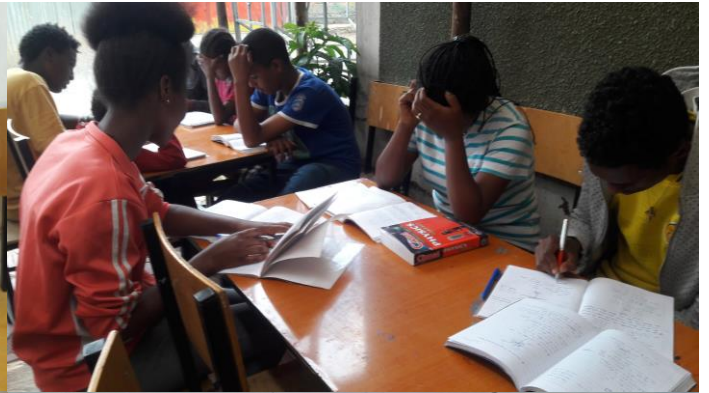

➤ Education

Currently the center has 38 children getting different service among them 7 children are primary school, 26 are in secondary school and 5 in college. From 26 students 4 will take national university entrance exam in December and 12 will take the national exam at the end of Ethiopian year. We will work for the success of these students to make it to universities and if this is not possible and if this is not possible we will look for other options like privet colleges, technical trainings and job opportunities.

Bringing light through service!
በአገልግሎት ብርሃንን ማምጣት!

➤ **Tutorial**

- 1 volunteer and 2 hired tutors provide tutorial to the kids every evening after school to all the kids.

➤ Meal

- The kids are now eating at the center their lunch and dinner.

➤ Health

- The needed health care have been provided to the kids when they get sick. Thankfully, we have not had any kid that was seriously ill. But we have shown the health of the volunteers and made sure that all the children are healthy.
